

TESTIMONIALS:

I just want to say thank you again. You underscore a tenet to which I strongly subscribe: man's ability to do what is right simply because it is right. The resilience of the human spirit. When I think of you, I am reminded of Elie Wiesel's Nobel Peace Prize Acceptance Speech, December 10, 1986:

"...Neutrality helps the oppressor, never the victim. Silence encourages the tormentor, never the tormented. Sometimes we must interfere ... And action is the only remedy to indifference, the most insidious danger of all. There is so much to be done, there is so much that can be done. One person, one person of integrity can make a difference ..."

Your willingness to interfere has restored my dignity. Indeed, one person can make a difference. Thank you!!!

Without your dedication to work hard, I would not have succeeded in this long and arduous fight. I thank you and appreciate you beyond my words can express. You have no idea the hope and reassurance you instilled in me when your voice represented mine. I believe one of the worst feeling anyone can experience is defeat and has feelings of no hope. That is the way I felt, in the past. Thank you, thank you.

In the roller coaster of emotions that I was on yesterday, I am not sure that I really let you know how thankful I am for your work on my case. At a most difficult time, you were an amazingly supportive and helpful presence. Words cannot express my gratitude for your actions and diligence with my suit. Just like your website says, I truly felt like my case was treated as if it was your only case. Even during the mediation, you kept things light and cheerful. It was a nice bonus when it was settled for more than expected! I am very grateful that your skilled efforts resulted in such a positive outcome. Thank you so much!!!!
